

# STEM After School Program

Achieve your full potential

STEM After School is for students who like to create, design, build and tinker. Students will learn to code, make and program robots, create games, and create original digital designs, movies, and music.

## Our STEM Tracks

Science

Digital Arts

Robotics & Engineering

Game Design

Programming &  
App Development

Mathematics

## With STEM After School, students will:

- ✓ Take project-based classes, and learn STEM skills while having fun
- ✓ Create, design, build, and develop cool projects
- ✓ Participate in STEM competitions
- ✓ Gain 21st century skills
